# One Relationship. Total Solutions.

Services for:

- » POWER
- » STEEL
- » PAPER
- » BIOENERGY
- » PETROCHEMICAL

**Helping you find the weak links in your system before they cause an outage.**

**Make smart maintenance decisions with Boiler Inspection Services.**

#### Extensive experience

For over two decades, and thousands of inspections, BIS has provided management with relevant and timely data to understand the root problems associated with boilers and pressurized vessels. It means we know where to look for typical wear patterns.

#### Rigorous training

Boiler Inspection Services has made a commitment to hire and retain only the highest-caliber technicians. From there, each technician has undergone an extensive certification regimen to meet the most stringent standards in our industry. With us, you can be guaranteed quality service, integrity and fully code-compliant service.

#### Clear reporting

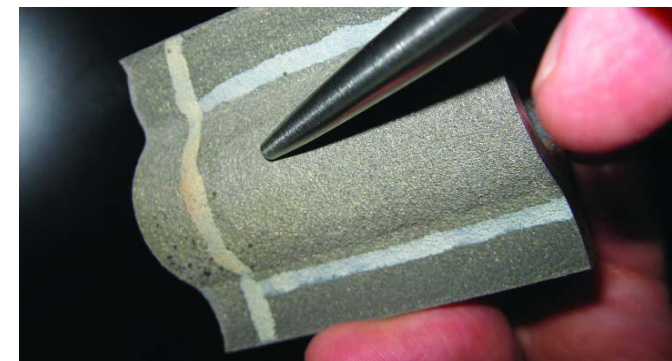

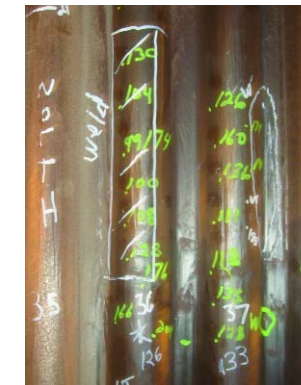

Boiler Inspection Services provides you with easy-to-understand reports that detail exactly where your vulnerabilities exist. But knowing is only half the story.

## Over two decades of improving boiler reliability.

Industrial boilers and pressurized vessels in the power, paper, processing, petrochemical and steel industries are mission-critical components. Without regular testing and maintenance, they can fail, potentially causing a shutdown. That's costly. And it hurts your company's budget and future sales.

#### CERTIFIED INSPECTION SERVICES

- » Weld O.C.
- » Ultrasonic
- » Magnetic Lift Off
- » Visual Wear Analysis
- » Magnetic Particle Testing
- » Dye Penetrant Testing
- » Laboratory Services
- » Failure Analysis

#### AFFORDABLE SOLUTIONS

Once we have a diagnosis of your problems, we can also provide you with affordable maintenance solutions through a variety of repair options. Greater reliability saves you money, increases your productivity and extends the working life of your boilers and pressurized vessels. One relationship. Total solutions. Put the power of information in your hands with Boiler Inspection Services.

**Wherever you are. We're there.  
Serving clients worldwide.**
